Contents of Volume 1

SENSORY INTERACTION

Sensory interaction: Control of auditory discrimination by visual stimulation in the pigeon by D. E. Carter, H. T. Salive and R. B. Zajonc, 242

PSYCHOPHYSICS

Matching functions between loudness and ten other continua by S. S. Stevens, 5

Classification of sets of stimuli with different stimulus characteristics and numerical properties by S. Imai, 48

Effect of reference number on magnitude estimation by T. Engen and B. M. Ross, 74

Interference with memory for lifted weight by A. Parducci, Louise M. Marshall and Mary Degner, 83

A method for sensation scaling based on an analogy between perception and judgment by L. Sjöberg, 131

A statistical decision model for sensory discrimination which predicts Weber's law and other sensory laws: Some results of a computer simulation by M. Treisman, 203

Comparison of magnitude estimation of loudness in children and adults by D. D. Dorfman and R. Megling, 239

Brightness and loudness as functions of stimulus duration by J. C. Stevens and J. W. Hall, 319

Note on the generalized form of Weber's Law by J. A. Michon, 329

Regression effect in psychophysical judgment by S. S. Stevens and Hilda B. Greenbaum, 439

COLOR VISION

Saturation of red: A prothetic continuum by D. W. Panek and S. S. Stevens, 59

Scaling of saturation and hue by T. Indow and S. S. Stevens, 253

BRIGHTNESS VISION

Individual brightness functions by L. E. Marks and J. C. Stevens, 17

Some demonstrations of the complementary functioning of the eyes by W. J. M. Levelt, 39

Duration, luminance, and the brightness exponent by S. S. Stevens, 96

Lightness of grays: Effects of background reflectance by R. M. Warren and E. C. Poulton, 145

Brightness as a function of retinal locus by L. E. Marks, 335

Contrast and assimilation in lightness judgments by J. Beck, 342

Lightness matching for different visual routes through a compound scene by H. R. Flock, A. Wilson and Sonja Poizner, 382

VISUAL MASKING

Temporal luminance summation effects in backward and forward masking by C. W. Eriksen, 87

Forward and backward masking as a function of relative overlap and intensity of test and masking stimuli by P. H. Schiller, 161

Visual perceptive simultaneity and masking of letters successively presented by P. Fraisse, 285

FORM PERCEPTION

The effect of abnormal displacement of the retinal image during eye movements by H. Wallach and C. Lewis, 25

The structure of visual pattern associates and pattern goodness by S. Handel and W. R. Garner, 33

The interaction between sensory and tonic factors in the perception of the vertical in pigeons by D. R. Thomas and J. Lyons, 93

Lateral preference for identical geometric forms: I. Normals by J. J. Winters, Jr. and Irma R. Gerjuoy, 101

Lateral preference for identical geometric forms: II. Retardates by Irma R. Gerjuoy and J. J. Winters, Jr., 104

The effect of the square root of time on continuing perceptual tasks by M. M. Taylor, 113

Tactile perception of sequentially presented spatial patterns by J. C. Bliss, H. D. Crane, S. W. Link and J. T. Townsend, 125

A comparison of verbal and non-verbal reports of fragmenting visual images by J. R. Schuck and W. R. Leahy, 191

Golden section: Preferred figural orientation by H. R. Schiffman, 193

Intensity of the underlying figural process by T. Künnapas, 288

Effect of orientation and of shape similarity on perceptual grouping by J. Beck, 300

The physical factor structure of random forms and their judged complexity by H. H. Stenson, 303

Figural goodness and internal structure in perceptual discrimination by F. L. Royer, 311

"Subliminal cues" and the Müller-type illusion by R. Trimble and C. W. Eriksen, 401

Stimulus correlates of visual pattern discrimination by monkeys: Multidimensional analyses by V. J. Polidora, 405

Binocular summation in the perception of form at brief durations by C. W. Eriksen, T. S. Greenspon, J. Lappin and W. A. Carlson, 415

WORD RECOGNITION

Word recognition with masking by B. Scharf, H. S. Zamansky and R. F. Brightbill, 110

Classification and identification thresholds for three types of verbal materials by Wilma A. Winnick and Rhea L. Dornbush, 181
The effect of repetition on the perception of single letters by R. N. Haber and Elaine R. Hillman, 347

SPACE PERCEPTION

Scaling subjective velocity, distance, and duration by H. C. Rachlin, 77
Shape-slant relations under reduction conditions by Wilma A. Winnick and Barbara E. Rosen, 157
Binocular fusion: A test of the suppression theory by R. Fox and R. Check, 331
Immediate correction and adaptation based on viewing a prismatically displaced scene by I. Rock, J. Goldberg and Arien Mack, 351
Figure-ground perception and random geometry by H. L. Frisch and B. Julesz, 389
Extent-of-motion thresholds under subject-relative and object-relative conditions by Olivia Shaffer and H. Wallach, 447
Oculomotor adaptation to wedge prisms with no part of the body seen by S. C. McLaughlin, K. I. Rifkin and R. G. Webster, 452

HEARING

Response uncertainty and perceptual difficulty of auditory temporal patterns by F. L. Royer and W. R. Garner, 41
Temporal interference effects in auditory amplitude discrimination by R. D. Sorkin, 55
Memory for the pitch of a tone by E. G. Aiken and A. W. Lau, 231

SPEECH PERCEPTION

The active use of grammar in speech perception by M. Garrett, T. Bever and J. Fodor, 30
To end ambiguous sentences by D. G. MacKay, 426

SOMESTHESIS

Specificity of a cutaneous receptor by R. T. Verrillo, 149
Apparent haptic movement by C. E. Sherrick and R. Rogers, 175
Vibrotactile loudness addition by J. C. Craig, 185
Effect of display movement on tactile pattern perception by J. C. Bliss, H. D. Crane and S. W. Link, 195
Information available in brief tactile presentations by J. C. Bliss, H. D. Crane, Phyllis K. Mansfield and J. T. Townsend, 273
Cutaneous coding of optical signals: The optohapt by F. A. Geldard, 377
Interdigital transfer of kinesthetic after-effects by R. W. Thompson, R. Enter and J. Tarpinian, 437

TASTE

Qualitative identification of the taste of weak sucrose-sodium chloride mixture stimuli by R. A. M. Gregson, 154
Beidler's theory and human taste stimulation by H. Stone and Shirley M. Oliver, 358

REACTION TIME

Reaction time to the onset and offset of electrocutaneous stimuli as a function of rise and decay time by T. G. Sticht and E. Foulke, 361
Generalization and response latency by In-Mao Liu, 366
Reaction time in relation to display size and correctness of response in forced-choice visual signal detection by W. K. Estes and D. L. Wessel, 369
Choice reaction and unequal stimulus frequencies in an absolute judgment situation by H. Kaufman and J. Lamb, 385

PERFORMANCE

Factorial effects in the categorization of externally distributed stimulus samples by W. Lee and T. R. Zentall, 120
Visual and acoustic confusability in a visual search task by G. A. Kaplan, A. Yonas and A. Shurcliff, 172
Parallel versus serial processes in multidimensional stimulus discrimination by H. E. Egeth, 245
Effects of temporal uncertainty on watchkeeping performance by R. P. Smith, J. S. Warm and E. A. Alluisi, 293
Stimulus novelty and intraseries primacy in GSR adaptation by R. Fried, L. Welch and Miriam Friedman, 345
Individual response patterns in binary choice tasks with nondiscriminable stimuli by M. H. Hodge and W. H. Riege, 421

ATTENTION AND VIEWING

Some physical determinants of viewing time under three instructional sets by L. T. Brown and W. Farha, 2
Looking time: The effects of stimulus complexity and familiarity by B. T. Leckart, 142
Nursery school children's observation responses to novel, complex, and asymmetrical complex stimuli by T. J. Banta, June Sciarra and Jean Jett, 165
A developmental study of visual search behavior by Eleanor J. Gibson and A. Yonas, 169
Information and the memory span by L. M. Hyman and H. Kaufman, 235
The effect of target specification on objects fixated during visual search by L. G. Williams, 315
Attention, extraversion, and stimulus-personality congruence by P. Bakan and B. T. Leckart, 355
Sex differences in the duration of visual attention by B. T. Leckart, K. R. Keeling and P. Bakan, 374
Source variability and recall of auditory material by P. Bakan and J. O. Thomas, 399

DETECTABILITY

Visual detection in relation to display size and redundancy of critical elements by W. K. Estes and H. A. Taylor, 9

Influence of correlated visual cues on auditory signal detection by R. A. Kinchla, J. Townsend, J. I. Yellott, Jr. and R. C. Atkinson, 67
The effect of rate of presentation of free looking time by B. T. Leckart, K. R. Keeling and P. Bakan, 107
Detection by the guinea pig of acoustic stimulation and of electrical stimulation of the brain by G. M. Gerken, 137

Author Index

A

Aiken, E. G., 231
Alluisi, E. A., 293
Atkinson, R. C., 67

B

Bakan, P., 107, 355, 374, 399
Banta, T. J., 165
Beck, J., 300, 342
Bever, T., 30
Bliss, J. C., 125, 195, 273
Brightbill, R. F., 110
Brown, L. T., 2

C

Carlson, W. A., 415
Carter, D. E., 242
Check, R., 331
Craig, J. C., 185
Crane, H. D., 125, 195, 273

D

Degner, Mary, 83
Dorfman, D. D., 239
Dornbush, Rhea L., 181

E

Egeth, H. E., 245
Engen, T., 74
Enter, R., 437
Eriksen, C. W., 87, 401, 415
Estes, W. K., 9, 369

F

Farha, W., 2
Flock, H. R., 382
